Magnetic jewellery & wellness

for back, neck & joints

Welcome to Magnetix Wellness

Jewellery with an effect – stylish, noticeable, unique.

In 1999, I discovered a simple magnetic bracelet – functional, but with a noticeable effect. I was thrilled, but the design didn't convince me. That's exactly what gave me the idea: to develop jewellery that looks good and does you good. And so what you know today as Magnetix Wellness was born:

a collection that combines magnetic power and style – with bracelets, rings, necklaces, earrings and accessories for your everyday well-being.

What makes us special: powerful neodymium magnets – embedded in elegant designs for the neck, back, legs or joints. Many of our bestsellers are available in attractive wellness sets, ideal for trying out.

New in this catalogue: For selected wellness products such as PowerHearts and parts of the silicone collection*, the following applies: Wear for 30 days. Feel. Decide.

If you're not thrilled, you'll get 100% of your money back.*

Because your well-being matters – and style should not be compromised.

Enjoy discovering our products!

Yours, Petra

Magnetism: The invisible force of nature

Magnetism is a fascinating force of nature – and often works where we cannot directly perceive it.

We cannot see magnetic fields. We cannot hear, smell or taste them.

And yet they are everywhere – including in the human body and in nature.

Magnetic force is a silent companion. And it can interact with movement.

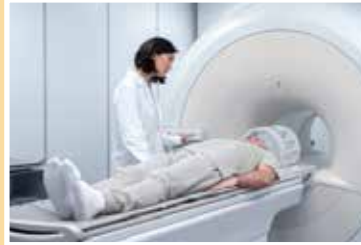

Magnetism is more than just attraction. It is energy, movement and part of a natural interaction that can subtly influence the human organism.

Magnetic force in modern medicine

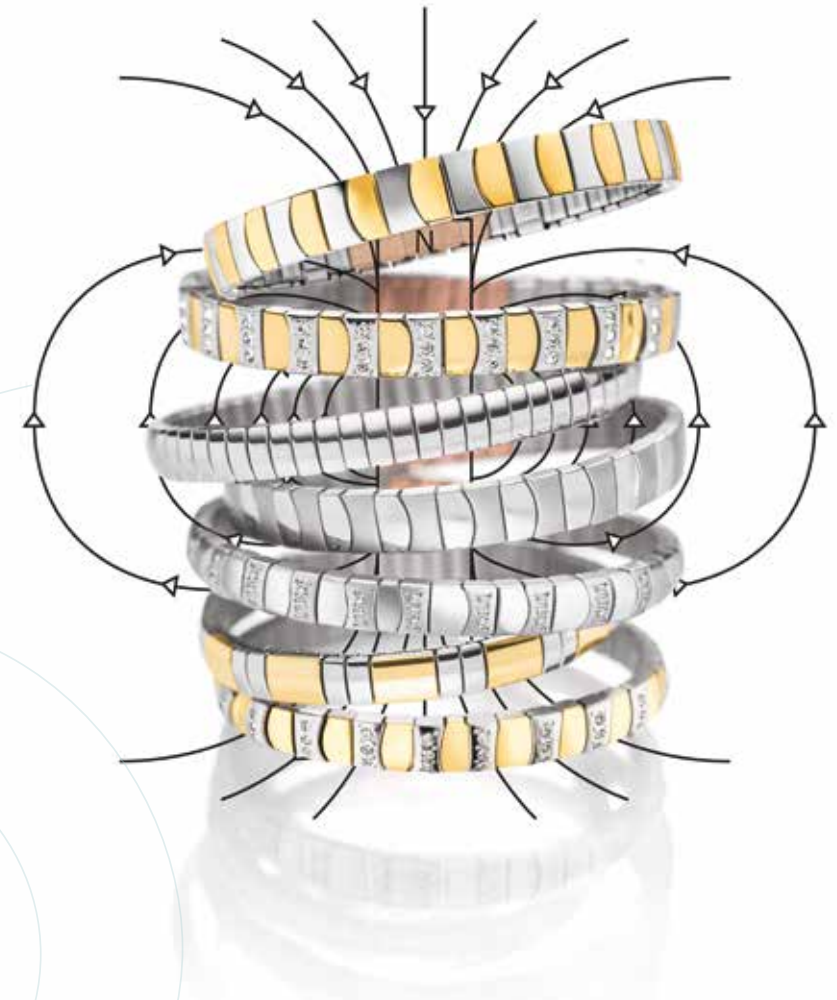

Magnetic fields have long since found their place in modern medicine – both in diagnostics and therapy:

- Magnetic resonance imaging (MRI) uses strong, pulsating magnetic fields to produce precise cross-sectional images of organs and tissues – without the use of X-rays.
- Since 1976, the use of electromagnetic fields to promote bone healing has been officially recognised by the US FDA.
- Transcranial magnetic stimulation (TMS) uses targeted magnetic pulses to stimulate areas of the brain in cases of depression or chronic pain.
- Magnetic field devices are also used in rehabilitation and physiotherapy to promote blood circulation and muscle relaxation.

„*Iron is the oxygen transporter in our body and the mineral also plays an important role in cell metabolism.*“

Linus C. Pauling, Nobel Prize winner

Why magnets are important for you

So we are constantly surrounded by a huge magnetic field. The power of magnets has a strong influence on the lives of all living beings on Earth:

- The Earth's magnetic field protects us from radiation.
- Migratory birds can sense the magnetic field and use it to navigate.
- The red blood cells that supply our bodies with nutrients contain iron, a magnetic metal.

Magnetic force with depth effect

THE POWER OF MAGNETS, IN HARMONY WITH YOUR LIFE !

The penetrating effect of magnetic force
So strong that four 5-cent coins are penetrated – that's what our power heart shows with 2,700 gauss in action.

The Earth's magnetic field in Western Europe typically has a strength of around 45 to 50 microtesla (μT), which corresponds to 0.5 gauss. By comparison, a typical jewellery magnet has a surface strength of around 1200 gauss. That is around 2,400 times the strength of the Earth's magnetic field.

The profound effect of magnets is used where it is needed. Ideal for targeted use – for yourself or for others in the family.

For many people, magnetic force is simply part of their everyday wellness routine – valued like a traditional home remedy.

Good to know

The Earth's magnetic field surrounds us like a natural protective shield – it protects us from cosmic radiation and solar winds.

The effect of magnets depends on their size, strength and placement. The larger the magnet, the deeper its field reaches and the larger the area that is stimulated at the same time.

Small magnets Discreetly incorporated into **bracelets, necklaces or rings**, they accompany you stylishly and discreetly through everyday life – often unnoticed, but continuously. For many people, magnetic jewellery is part of their daily wellness routine.

Larger magnets For example, in **power accessories** such as a **power heart with a bandage** for the knee or a **power accessory XL** for the back. These products work with particularly strong magnets and have a targeted effect on larger areas of the body. You can wear them for several hours a day or over longer periods of time – depending on what you need.

Magnetic force: the right combination counts.

Magnetic jewellery = your daily background noise
Wearable every day, elegant, discreet and permanently active. Like a gentle, constant feeling of well-being in the background.

Wellness accessories = targeted deep action when needed

Strong, focused, phased. Many people wear a Power Heart or knee bandage regularly, on a daily or weekly basis, as a complement to their jewellery. This creates an effective interaction in everyday life.

Power Heart
(0.3 cm Ø and 0.5 cm deep)
has a depth effect of approx. 4.02 cm

Small jewellery
(ca. 0.3 cm Ø und 0.2 cm tief)
has a depth effect of approx. 1.49 cm

Thermotherapy – targeted use of heat and cold

Heat relaxes. Cold calms.
Thermal stimuli are natural aids
to our wellbeing. Physical therapy
has been using targeted heat and
cold applications for centuries –
medically sound and tried and
tested many times over.

Whether hot or cold, thermother-
apy activates the body's own
processes and supports the
natural healing process. Easy
to use. Noticeable effects.

GUA SHA

In traditional Chinese medicine, the Gua Sha stone is mostly used for scraping body massages. When used for gentle facial massage, it has a particularly firming and skin-refreshing effect.

APPLICATION

Hold the Gua Sha at an angle and stroke from the centre of the face outwards. The Gua Sha always moves from the centre of the face outwards and at the same time from bottom to top. Use the short side of the magnet to smooth the edges of the jaw, and the wide side to stroke along the neck, for example. Oils and creams can also be effectively worked into the skin.

TIP FOR HEADACHES

A massage on the temples. Suitable for this: essential mint oil, e.g. Head Calm

Water – the source of energy for your wellbeing

What you see, you won't forget!

The magnetic rod in your glass is an attractive eye-catcher. It draws your attention to your glass or carafe throughout the day.

Drink regularly!

Drink at least 1.5–2 litres of water throughout the day – this will keep your body and mind fresh and healthy!

More flavour!

A splash of lemon or a dash of fresh fruit juice adds a delicious twist to your glass of water. A few pieces of cucumber, mint leaves or some fresh ginger also add flavour. Simply stir with the magnetic rod and your natural thirst quencher is ready.

HEMP is one of the oldest crops known to mankind and offers many different applications. The cannabinoid CBD is the second most common ingredient in the hemp plant, alongside many valuable proteins, terpenes and other active ingredients.

CBD acts on the human endogenous cannabinoid system. This is part of the nervous system and has on the cell surface receptors to which CBD binds. These receptors regulate numerous biological processes in the body.

The wrist

Present in every movement, visible in every gesture – the wrist is one of the most active and well-supplied areas of the body. This is where style comes into play. This is where magnetic force takes effect.

In many cultures, the wrist is more than just a joint – it is an expression of vitality and balance. Whether in pulse diagnosis in Chinese medicine or in Indian bracelets, this area has always been significant.

Our bracelets connect this spot with magnetic impulsive power, timeless design and noticeable lightness.

Inspired by tradition
– now part of everyday life

In India, bangles traditionally represent joie de vivre, wealth and energy. In East Asia, bracelets are considered a symbol of protection and balance. Our unisex bracelets draw on this millennia-old symbolism –

and make them wearable for today. Whether sporty, urban or elegant: every time you wear them, you connect with your style – and with an energetically intelligent place in your body.

Design classics for bikers and horse- power fans

Whether for leisure or touring, our stainless steel magnetic bracelets are real eye-catchers with power.

Stainless steel, clean lines and strong shapes – for a look that shows attitude. But there's more to the design than meets the eye: important energy pathways run along the wrist. Our magnetic force is located exactly where it is needed – discreet, powerful, in the style of a modern statement.

Bracelets for every occasion

*Why do people wear bracelets?
Because they touch them. Visible,
tangible, meaningful.*

*Our link bracelets combine style
with inner balance – worn where
you can feel your pulse.*

*Choose your favourite design – and
connect it with energy that works
every day.*

*An impulse for your everyday life. A

Tennis- bracelets

How the tennis bracelet got its name.

A classic with history – inspired by legendary tennis player Chris Evert, who lost her diamond bracelet during a match at the US Open.

Yes, she had the game interrupted so she could find it on the court.

Since then, "tennis bracelets" have been a symbol of sporting elegance and feminine strength.

Our MAGNETIX tennis bracelet combines this iconic shape with modern wellness innovation:

- Sparkling zirconia stones in high-quality, secure claw or bezel settings
- Two discreetly integrated powerful magnets
- Timeless design for everyday wear and special occasions

Thanks to its elegant shape, it fits comfortably but never looks overdone – ideal for women who value style and well-being on all occasions.

Jean-Gabriel Causse & the power of colours

Jean-Gabriel Causse is a French colour
expert and author of the book
"The Surprising Power of Colours".

In his TED Talk, he impressively explains
how colours influence our mood, our
behaviour and even our creativity. For
example, studies show that pink reduces
aggression (e.g. in prisons) and promotes
creativity (e.g. in nurseries).

He himself often wears pink clothing
during his lectures – a statement about
the positive power of colours.

The Tree of Life – a source of strength for body and soul

The Tree of Life is an ancient symbol that represents harmony, life energy and inner balance in many cultures. Its deep roots symbolise our connection to the earth, while its wide-spreading branches represent openness to growth, development and new strength.

It not only inspires positive thoughts, but also a feeling of security and inner strength. As a symbol of healthy growth, it accompanies you on your personal journey through life – protecting, strengthening and reminding you to stay centred.

Carry this powerful symbol close to you – as a daily reminder of your roots, your potential and the life energy that flows within you.

Fragrant effect with magnets

Aromas & colours for well-being
Essential oils have a positive effect on the body and mind, as the sense of smell is directly connected to the limbic system, the control centre of our emotions. They can put us in a good mood and stimulate our senses. Combine your favourite fragrance with your favourite motif and a soothing colour.

MAGNETIC FLEXIRINGS

Our magnetic rings are
made from high-quality, skin-
friendly silicone and are extremely
comfortable to wear. Thanks to
their extra-thin band, they are
barely noticeable and can be worn
together without any pressure or
discomfort.

PAINFUL FINGERS

„I have osteoarthritis in my
finger joints. The cooled Finger
Pack relieves the pain. When
warm, it promotes metabolism
and loosens tense muscles
and tendons in the fingers.

I like to combine it with the
flexible rings that also fit
over swollen joints.“

Information on sizes, materials, assembly

Necklace lengths

Assembly instructions for bracelets and chains

Replacing a bracelet centre part; 12 and 18 mm width

- 1 Insert pin from the middle section into the lower hole.
- 2 Press the button down and insert the upper pin into its counterpart – until it clicks!

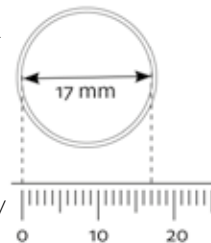

Adjusting double sizes for bracelets and link necklaces

- 1 Flip up the clasp plate.
- 2 Remove or insert the extension element – close the clasp plate.

A Extension with clasp clip

Ring sizes

Measure the inner diameter of a ring that fits you in millimetres. This measurement is the order size (please order in whole millimetres/sizes).

Variable bracelets 12 mm

- 5360* | S-XXL, € 23 / £ 22
- 1536* | S-XL € 23 / £ 22

Variable bracelets 18 mm

- 5359* | S-XXL, € 19 / £ 18

Shortening children's bracelets

- 1 Lift up the clasp plate with a pointed object.
- 2 Pull out the strap, shorten it, reinsert it and close the clasp plate.

Material information and important notes

Magnets

Our jewellery contains one or more neodymium magnets with a strength of approx. 1.200 to 2.700 gauss. Neodymium magnets are characterised by their strength and durability.

Magnets can damage credit cards and other magnetic cards. Please store them separately from magnetic jewellery and magnetic accessories.

Material

Most of our magnetic jewellery is made of high-quality stainless steel. Some of the jewellery also contains copper.

Wearing instructions

People with pacemakers and pregnant women should consult their doctor before wearing magnetic products.

Right of withdrawal

As a consumer, you have a 14-day right of withdrawal. You will be refunded the full purchase price. If you are not satisfied with your magnetic jewellery, you can also return it within 30 days. You will then receive a refund of the purchase price minus a 15% processing fee. The right of withdrawal remains unaffected.

Copper jewellery

When wearing copper bracelets or accessories such as the Power Heart, some people may experience a slight green discolouration of the skin due to a natural reaction between skin acid and copper. This discolouration can be easily washed off with soap and water or a little lemon juice.

Jewellery care

We recommend removing jewellery when showering, swimming or doing wet housework. Perfume, creams, deodorant, hairspray or detergent can also cause damage. Ideally, you should clean your magnetic jewellery with jewellery polishing cloths or lukewarm water.
